Experience Milford Sound the way it should be... Up Close and Personal

Milford Sound's beauty is in its isolation and grandeur and our cruises are purposely designed to make the most of this stunning natural environment.

Make the most of your Milford experience by travelling further and getting closer. Get lost in Milford, not in the crowds, on our low capacity vessels.

Uncrowded & Unhurried

Mitre Peak Cruises leads the way in small, scenic cruises of spectacular Milford Sound - considered to be the 8th wonder of the world because of its beauty and grandeur, a true world 'must-see'.

Our purpose built vessels are specially designed for Milford Sound, allowing you to experience its wonders up close and personal. Your voyage of discovery will take you out past the entrance of the fiord, into the Tasman Sea, with breath-taking views in every direction.

Mitre Peak Cruises takes you into the very heart and soul of the fiord, where the big boats can't go. Join us and experience the majestic natural beauty of Milford Sound.

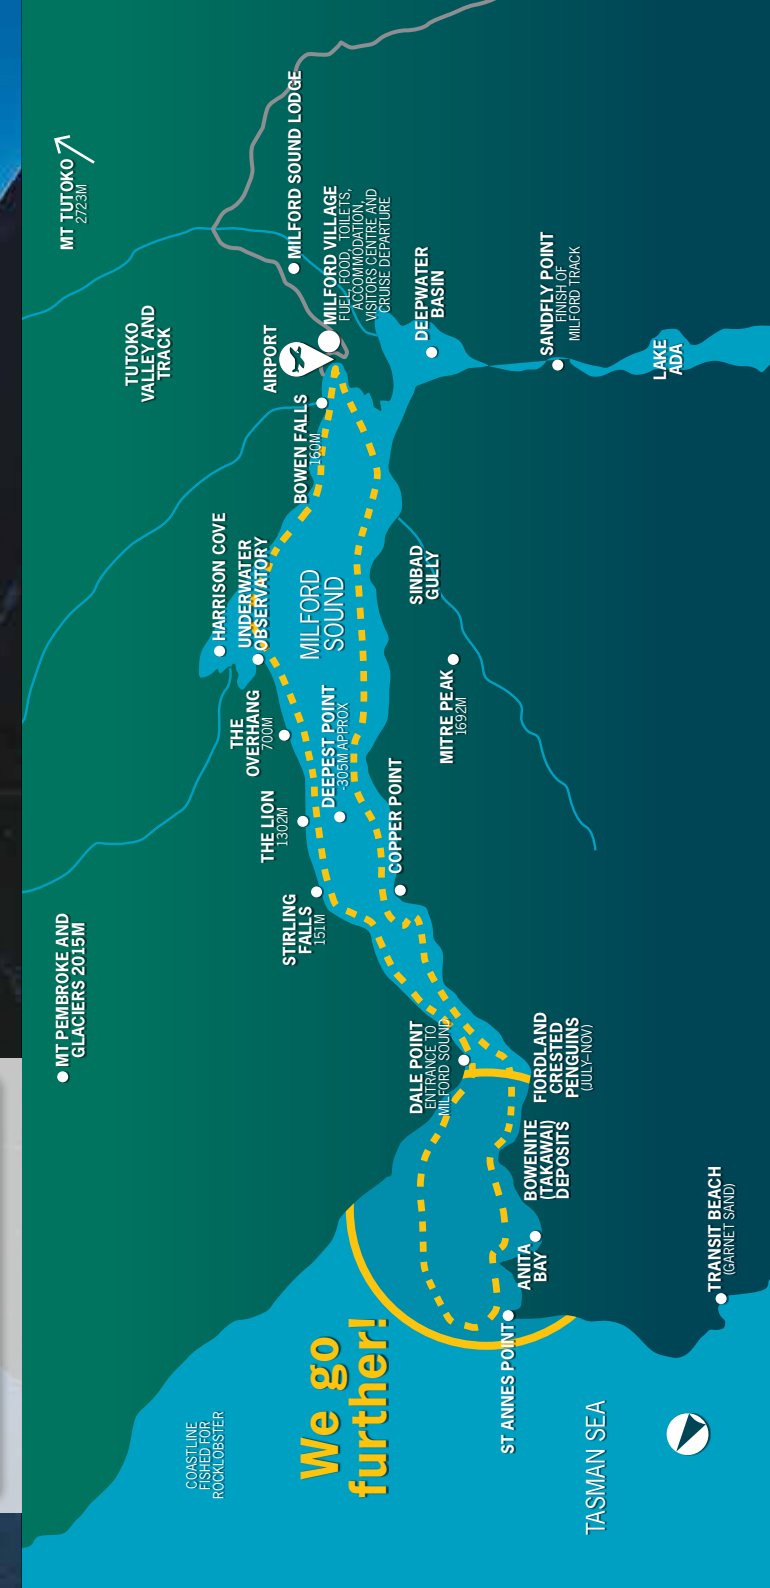

Cruise Highlights

Our smaller vessels have viewing decks closer to the waterline, getting you nearer to waterfalls and marine life including New Zealand fur seals and the occasional pod of dolphins or Fiordland Crested Penguin. We do not hurry. The cruises go further and take in more of Milford Sound. Full and informative commentary from our Captain highlights the wonders of Milford. Complimentary tea and coffee available on-board.
